GETTING STARTED

Your first step to achieve your custom kit is to select a design for your specific garment. Contact us to assist you in this process.

SUBLIMATED COLOURS

Will has a wide reaching colour palette specifically designed to match most teams' colours. We can also match colours when provided with a selected PMS colour.

For the Will Sportswear sublimated colour chart please refer to page 51.

STOCK COLOURS

Willing Ways Group has stock colours available in selected fabric. This allows manufacture of a cut and sew garment.

Check our fabric and colour library with your sales rep.

CUSTOM DESIGN

Will has an in-house design team available should you wish to create your unique uniform.

ON-FIELD

FABRICATION FEATURES

PRO TECH

94% Polyester, 6% Spandex / 270 gsm
STAYCOOL TECHNOLOGY™

The ultimate polyester hybrid, and innovative sublimated fabric.

Spandex fiber gives maximum onfield movement and stay cool technology enhances performance.

Available in all sublimation colours.

CLUB ELITE

100% Polyester / 240 gsm
STAYCOOL TECHNOLOGY™

The #1 choice for durability & performance.

Specifically developed to provide the ideal combination of strength and versatility.

Mesh face with plain back allows for printing on the reverse side of the fabric depending on the desired outcome. Complete with STAYCOOL TECHNOLOGY™ to transfer moisture from the skin, through the fabric to provide efficient evaporation and enhance performance.

Available in all sublimation colours.

REVERSE MINI ELITE

100% Polyester / 220 gsm
STAYCOOL TECHNOLOGY™

Fabric Benefits: A lighter version of club elite. A durable knit fabric that is printed on the reverse side for shorts.

Fabric uses: Rugby and league shorts, training shorts.

Available in all sublimation colours.

RIPSTOP

Composition: 88% Polyester 12% Elastane / 210 gsm

Fabric Benefits: Strong textured fabric with exceptional burst strength construction.

Fabric uses: Rugby and league shorts, training shorts.

Available in all sublimation colours.

POLYESTER WARP KNIT

Composition: 100% polyester 150 gsm.

Fabric Benefits: Lightweight strong knit fabric.

Fabric uses: Rugby league shorts.

Available: In select colours for cut & sew.

The fabric is suitable for sublimation.

POLYESTER TWILL

Composition: 100% polyester twill / 280 gsm

Fabric Benefits: A durable mechanical stretch fabric suitable for onfield.

Fabric uses: Rugby shorts.

Available: Black, Navy, Royal, Red, Maroon, Sky, Bottle, Gold, Redcliffe Red and White.

The fabric is suitable for sublimation.

OFF-FIELD

POLY PIQUE

Composition: 100% Polyester Pique/ 139 gsm.

Fabric Benefits: Suitable for gym and onfield with great drape & STAYCOOL TECHNOLOGY™.

Fabric uses: Football and training tees and shorts.

Available: In select colours for cut & sew.

The fabric is suitable for sublimation.

SPORTS MESH

Composition: 100% Micro Mesh Polyester/ 150 gsm.

Fabric Benefits: A durable, stretchable mesh fabric with wickable finish and STAYCOOL TECHNOLOGY™

Fabric uses: Singlets, tees, polos, shorts, netball dresses and tops.

Available: In a large selection of colours for cut & sew

The fabric is suitable for sublimation

COTTON/POLY FLEECE

Composition: 60% Cotton, 40% Polyester 280 gsm

Fabric Benefits: Insulated to keep warm with anti-pill finish

Fabric uses: Hoodies and sweat shirts

Available: In select colours for cut & sew

The fabric is suitable for sublimation

STRETCH MICROFIBER

Composition: 90% Polyester, 10% Spandex/ 125 gsm

Fabric Benefits: A stretchable water resistant and breathable fabric suitable for maximum performance in the gym and onfield

Fabric uses: Training shorts and tracksuit

Available: In select colours for cut & sew

The fabric is suitable for sublimation

MICRO TACTEL

Composition: 100% Polyester/ 110gsm

Fabric Benefits: A durable water resistant peach face fabric suitable for most outdoor and some indoor Sports

Fabric uses: Tracksuits, pants and shorts

Available: In select colours for cut & sew

The fabric is suitable for sublimation

WET WEATHER RIPSTOP - OUTERWEAR

Composition: 100% polyester

Fabric Benefits: Water resistant and windproof. A very strong fabric by construction

Fabric uses: Jacketing

Available: In select colours for cut & sew

The fabric is suitable for sublimation

Please note all above measurements are body measurements. Note fits will vary as some are more slim fit or pro fit and others a larger standard cut. If you are between sizes go up for a more relaxed fit or down for a tighter silhouette. Note all garments are not available in all sizes. Refer to catalogue for individual styles.
